Experience

BlackBerry Limited / Oct 2016 - Apr 2017

User Experience Designer II

Designed user interface for Tasks, Workflows and various infographics for the BlackBerry Workspaces. Established user flow and designed lo-fi wireframes, visual mockups, interactive prototypes as well as graphical assets and specs.

Ladder Software / May 2016 - Sep 2016

UX/UI Designer (Contract)

Provided a new and user friendly mobile solution for the Sandbox Child Care Software. Solely completed the information architecture, the user interface design, and the Hi-Fi prototype production.

Scotiabank / May 2016 - Jul 2016

UX Consultant (Co-op)

Provided UX solution for an in-branch kiosk aiming to provide customers with personalized actionable financial insight. Lead the entire experience design process in a multidisciplinary team of four, including problem definition, user research, information architecture, content strategy, and visual prototype.

Youpeng Technology / Aug 2013 - Jul 2014

Web Product Designer

Designed user interface for mobile App and website for in-house product "Xigou"-an online shopping guide targeted at chinese female users. My key contributions include: created personas and user flow; designed wireframe and high fidelity visual mockups.

Huawei Technologies / Jun 2012 - Jul 2013

User Experience Designer

Worked on various projects including creating new modules for large screen smartphones, optimizing usability of EUI platform, as well as an international collaboration with Softbank to create a smartphone interface specific for elder groups to cater customers' special needs in the japanese market.
